ÖZGÜR YAYINLARI

Capital'i yüksek toplumlar ve şirketler, bunu insanlığın yararına ve sürdürülebilir bir gelecek için kullanma sorumluluğunu da taşırlar. Sürdürülebilir rekabet avantajı, sadece kâr eğrileriyle değil, aynı zamanda sosyal fayda ve etik değerlerle birlikte düşünülmelidir. Bu kapsamda AI Capital Homo Symbiotica Human-AI simbiyozu literatürünün de genişletilmesine yönelik sektör bazlı incelemeler içeren bilimsel makale ve kitap çalışmalarının da gerçekleştirilmesi önerilmektedir.

- Implementation of regular and systematic cleaning programs to reduce dust and particulate matter accumulation.

3. **Integration of Enzymatic and Probiotic Cleaning Systems:**
   - Use of enzymatic detergents in the pre-cleaning stage to reduce organic dirt load.
   - Using probiotic cleaning products to achieve a more balanced surface microbiome, especially on surfaces with high contact intensity but where chemical exposure needs to be reduced (floors, changing rooms, shower areas, equipment exteriors).
4. **Ventilation and Indoor Air Quality Monitoring:**
   - Regular maintenance of mechanical ventilation systems and filter replacement.
   - Periodic monitoring of CO_2, particulate matter ($PM_{2.5}$, PM_{10}), and total volatile organic compound (TVOC) levels, and installation of alarm systems above specified threshold values.
   - Optimizing ventilation rates according to the facility's usage intensity.
5. **Staff Training:**
   - Comprehensive training of cleaning personnel on green hygiene principles, proper use of new products, dosing, and application techniques.
   - Raising awareness about chemical exposure risks and the use of personal protective equipment.

5.2. Recommendations for Athletes

6. **Increasing Personal Awareness:**
   - Avoid training during peak hours after cleaning (especially the first few hours immediately after disinfection) or choose areas with adequate ventilation.
   - Pay attention to personal hygiene rules (hand washing, wiping equipment with a personal towel).
7. **Skin Barrier Protection Measures:**
   - Use pH-balanced cleansers that do not dry out the skin when showering after exercise.

- Protect the skin with moisturizers that strengthen the skin barrier.

5.3. Recommendations for Policy Makers and Researchers

8. **Development of Legal Regulations:**
   - Revising indoor air quality standards and cleaning protocols for sports facilities based on current scientific data.
   - Promoting green hygiene products and restricting the use of toxic chemicals.
9. **Supporting Multidisciplinary Research:**
   - Conducting controlled field studies comparing the effects of different cleaning approaches (chemical, enzymatic, probiotic) in sports facilities on indoor air quality, surface microbiome, athlete health, and performance.
   - Supporting epidemiological studies examining the effects of long-term exposure on chronic health outcomes.

The sports facilities of the future must be "non-toxic" spaces where not only physical capacity but also environmental health is optimized. This transformation is not only a scientific necessity but also an ethical responsibility towards the health of athletes and the planet's sustainability.

7. Conclusion

The transition from chemically intensive disinfection to a "Green Hygiene" paradigm is no longer a discretionary choice but a physiological necessity for the modern sports industry. As detailed throughout this chapter, the respiratory and dermatological burdens imposed by traditional quaternary ammonium compounds and chlorine-based agents create a paradox in which the need for hygiene maintenance compromises the pursuit of health. The adoption of Green Chemistry principles—specifically through the integration of enzymatic and probiotic technologies—offers a scientifically viable pathway to mitigate these toxic exposures without sacrificing microbial safety. By shifting the focus from "sterile destruction" to "microbial balance," facility managers can optimize indoor air quality and protect the biological integrity of athletes. Ultimately, realizing the vision of "toxin-free training" requires a holistic commitment to sustainable practices, ensuring that sports environments support, rather than undermine, human performance and environmental well-being.

- Mümkün olduğunca plastik ambalaj malzemeleri yerine biyolojik olarak parçalanabilen ambalajlar, bambu ürünler ve bitki bazlı alternatifler kullanılmalıdır.
- Atık sınıflandırması, plastik atıkların geri dönüşümü ve kullanımını gerçekleştirmek için gerekli bir yöntemdir; farklı türdeki plastik atıkların makul ve bilimsel bir şekilde sınıflandırılması ile depolama sırasında tarım ekosistemlerine giren plastik miktarı önlenebilir veya azaltılabilir.
- Plastikler, bertaraf edilirken diğer atıklardan ayrı tutulmalı ve uygun şekilde işlenmelidir.
- Geri dönüştürülmüş plastik ürünlerin tümü için kalite şartları oluşturulmalı ve uygulanmalıdır.
- Plastik atıkların yönetimi için yerel ve özgün çözümler geliştirilmelidir.
- Plastik atık yönetimi politikaları geliştirilirken ve uygulanırken, toplumun her düzeyinin ihtiyaçları dikkate alınmalıdır. İlkokuldan başlayarak eğitim sistemimizin her aşamasında, plastik atık yönetimine ilişkin sosyal sorumluluk aşılanmalıdır.
- Mevcut en iyi teknoloji ve teknikler hakkında sürekli bilgi paylaşımı yapılmalıdır.
- Standart veya biyolojik olarak parçalanamayan malzemeler, nişasta gibi yüksek oranda biyolojik olarak parçalanabilen malzemelerle değiştirilmelidir.
- Sanayiden kaynaklanan plastik atıklar ya geri dönüştürülmeli ya da yeniden değerlendirilmelidir.
- Atıksu arıtma tesisleri, atıksudan plastik parçacıklarını uzaklaştırarak mikroplastik kirliliğinin önlenmesinde çok önemli bir rol oynayabilir. Ekosistemdeki mikroplastik miktarını azaltmak için bu tesislerin kapasitesini ve verimliliğini artırmaya yönelik çalışmalar yapılabilir.
- İşletmeleri sürdürülebilir uygulamaları benimsemeye ve plastik kullanımını azaltmaya teşvik etmek, mikroplastik kirliliğini en aza indirmenin etkili bir yolu olabilir.

Tablo 1. Yönetim kavramları ve özellikleri

Kavram	Önemli Özellikler
Yetki Devri	•Yöneticinin bazı karar ve uygulama yetkilerini astlarına bırakmasıdır. •Yetki devredilse de nihai sorumluluk yöneticide kalır. •Kamu kurumlarında yetki devri yasal mevzuat ve kurallarla sınırlandırılmıştır. •Yönetsel süreçlerde yetki devri karar alma ve iş yürütmede verimlilik sağlar. •Yetki verilen çalışan belirli sınırlar içinde karar alıp uygulama yapabilir.
Personel Güçlendirme	•Çalışanların iş süreçlerine daha aktif katılım sağlayabilmesi için bilgi, kaynak ve yetkiyle donatılmasıdır. Personel güçlendirme yapısal ve psikolojik olmak üzere 2 boyutta incelenir. •Yapısal güçlendirme çalışanlara bilgiye erişim, kaynak kullanımı ve destek sağlanmasını içerir. •Psikolojik güçlendirme çalışanın işine anlam verme, özgüven kazanma ve etkili hissetme durumunu kapsar. •Yalnızca bireysel değil örgütsel düzeyde motivasyonu ve verimliliği artırır. •Güçlendirme süreci, çalışanların yalnızca işi yapmaları değil, sürece yön vermeleri için de fırsatlar sunar.
Personel Yetkilendirme	•Çalışanın iş üzerinde kontrol hissini güçlendirmek ve sorumluluk bilincini artırmaktır. •Çalışanların yalnızca görev uygulayıcısı değil, karar verici bir aktör olarak görülmesini sağlar. •Personel yetkilendirme yapısal ve psikolojik olmak üzere 2 boyutta incelenir •Yapısal yetkilendirme, bilgi ve görev paylaşımı yoluyla çalışanın karar süreçlerine dâhil edilmesini içerir. •Psikolojik yetkilendirme, çalışanın işine anlam verme, kendini yetkin hissetme, bağımsız hareket edebilme ve etkili olduğunu düşünmesiyle ilgilidir.
Çalışanı Özgürleştirme	•Bireyin sadece görev yapan değil, karar alan, problem çözen ve sürece yön veren bir özne olmasını amaçlar. Post-bürokratik yönetim anlayışı ve demokratik liderlik tarzı çalışanın özgürleştirilmesini destekleyen temel yönetim yaklaşımlarıdır. •Post-bürokratik yönetim anlayışı hiyerarşiyi azaltarak esnekliği ve bireysel inisiyatifi ön plana çıkarır. •Demokratik liderlik anlayışı çalışanların fikirlerine değer verir, güven duyar ve onların katılımını teşvik ederek özerkliği destekler. •İş yerinde daha yaratıcı, sorumlu ve tatmin düzeyi yüksek bireylerin gelişmesini destekler.
Örgütsel Demokrasi	•Örgütsel demokrasi çalışanların yönetime katılımını, karar süreçlerine dâhil edilmesini ve ortak aklın işletilmesini esas alır. •Şeffaflık, hesap verebilirlik ve katılımcılık gibi ilkelere dayanır. •Endüstriyel demokrasi anlayışından beslenmiş ve 1960'lar sonrası gelişen demokratikleşme eğilimlerinin etkisiyle kurumsallaşmıştır. •Çalışanlar yalnızca uygulayıcı değil; düşünen, eleştiren ve katkı sunan bireyler olarak görülür. •Örgüt içinde adalet, açıklık ve eşitliği güçlendirerek, kurumun demokratik niteliğini artırır.

Süreç Göstergesi	KPI: Key Performance Indicators	Açıklama
Ayrımcılık	Ayrımcılık/Taciz Bildirim Sayısı	Bildirilen ayrımcılık veya taciz vakalarının sayısı
Ayrımcılık	Ayrımcılık Şikâyetlerinin Çözüm Süresi	Bildirilen vakaların ortalama çözülme süresi
Ayrımcılık	Ayrımcılıkla İlgili Düzenlenen Eğitimler	Ayrımcılık, önyargı ve ayrımcılıkla mücadele gibi konularda düzenlenen eğitimlerin adam/saat oranı
Çeşitlilik	Kadın Yönetici Oranı	Toplam yönetici pozisyonlarında kadınların oranı
Çeşitlilik	Engelli Çalışan İstihdamı	Engelli bireylerin toplam çalışanlar içindeki yüzdesi
Çeşitlilik	Etnik veya Kültürel Çeşitlilik Oranı	Farklı etnik kökene sahip çalışan sayısı
Çeşitlilik	Yaş Çeşitliliği Endeksi	Farklı yaş gruplarının dağılımı
Çeşitlilik	Çeşitliliğe Dayalı İşe Alım Oranı	Yeni işe alınanlar arasında çeşitlilik unsurlarına sahip bireylerin oranı
Eşitlik	Cinsiyete Dayalı Ücret Eşitliği	Benzer pozisyonlarda çalışan kadın ve erkek arasındaki ortalama ücret farkı
Eşitlik	İç Terfilerde Eşitlik	Terfi edilenler arasında kadın, engelli veya azınlık gruplarına mensup bireylerin oranı
Eşitlik	Esnek Çalışma İmkânlarından Yararlanma	Dezavantajlı grupların esnek çalışma seçeneklerinden yararlanma oranı
Kapsayıcılık	Çalışanların Kapsayıcılık Algısı	Çalışanların kapsayıcılıkla ilgili algı düzeylerini ölçen yıllık anket sonuçları
Kapsayıcılık	Kararlara Katılım	Farklı sosyal gruplardan bireylerin karar alma süreçlerine katılım oranı
Kapsayıcılık	Yönetim Kurulunda Temsil Gücü	Dezavantajlı gruplara mensup bireylerin yönetim kurulundaki oranı

Sonuç olarak bu çalışmanın, DEI alanında mevcut bilgi birikimini derinleştirmesi ve gelecekte yapılacak akademik araştırmalara ve uygulamalı çalışmalara ışık tutarak, iş dünyasında kapsayıcılık, eşitlik ve çeşitliliğin kalıcı ve etkili bir biçimde yerleşmesine katkı sağlaması beklenmektedir.

denetim ve geri bildirim döngüleri sağlanmalıdır. Bu unsurlar, düzensiz ve kişiye bağlı bir yönetim anlayışından sistematik, şeffaf ve profesyonel bir kurumsal yönetim modeline geçiş için temel oluşturur. Başarılı bir dönüşüm süreci, liderlik desteği, çalışan katılımı ve tutarlı uygulamalar ile mümkün hale gelebilir.

Bir organizasyonun sıfırdan kurumsal yönetim ve yönetişim sürecini tamamlayabilmesi için aşağıdaki öneriler geliştirilmiştir:

- Misyon, değerler ve hedefler açıkça tanımlanmalı ve tüm paydaşlar için bir yol haritası sunulmalıdır.
- SMART (Spesifik, Ölçülebilir, Ulaşılabilir, Gerçekçi, Zamana Bağlı) hedefler kullanılarak yönetimin etkinliği artırılmalıdır.
- Değişim sürecinde eğitim ve iletişim stratejileri etkili bir şekilde uygulanmalıdır.
- Finans, insan kaynakları ve operasyon gibi departmanların uzmanlaşması sağlanarak süreçlerin standardizasyonu ve işlevsel birimlerin ayrıştırılması yapılmalıdır
- Şeffaflık, hesap verebilirlik ve etik standartlara dayalı bir yönetim kültürü oluşturulmalıdır.
- Yetkinlik bazlı işe alım ve eğitim süreçleriyle çalışan motivasyonu artırılmalıdır.
- Finansal raporlama ve denetim mekanizmaları kurularak paydaşlarla düzenli iletişim sağlanmalı, böylece hesap verebilirlik ve şeffaflık güçlendirilmelidir.

Bu öneriler düzensiz ve kişiye bağlı bir yönetim anlayışından sistematik, şeffaf ve profesyonel bir kurumsal yönetim modeline başarılı bir geçiş için temel oluşturması için getirilmiştir. Başarılı bir dönüşüm süreci için liderlik desteği, çalışan katılımı ve tutarlı uygulamaların yeri de unutulmamalıdır.
