- Doğal boyar maddelerin endüstriyel ölçekte uygulanabilirliği, performans optimizasyonu ve ekonomik analizleri,
- Nano-teknoloji tabanlı kimyasal risk azaltıcı çözümler ve bunların iş sağlığına katkıları,
- Kimyasal risk yönetimi stratejilerinin uzun vadede toplumsal refah ve çevresel sürdürülebilirlik üzerindeki etkilerinin nicel ve nitel değerlendirilmesi.

Bu yaklaşımlar, hem sektörel gelişim hem de ulusal düzeyde kimyasal risklerin etkin yönetimi açısından kritik önem taşımaktadır.

Düşün ki her sabah kalkıyorsun yaradan aşkıyla bugün hangi insana ve insanlığa nasıl faydam dokunabilir diye düşünüyorsun? Hiçbir ideolojik ayrım yapmadan.

Sevgi Barış ve adaletin olduğu bir dünya inşa ve ihya etmek için hayat yolculuğuna çıkıyorsun

Önce aynaya bakıp irtibat iletişim iş birliği ve iştirak sürecinde kendini tanımaya çalışıyorsun

Dışarı çıkıyorsun göle bakıyorsun irtibat kuruyorsun iletişime geçiyorsun görebildiklerin göremediğin çok şey düşünüyorsun işbirliği ve iştirak aşamasına geçiyorsun

Daha sonra dağlara bakıyorsun irtibat iletişim işbirliği ve iştirak aşamalarında düşünerek fikirler üretiyorsun

Nihayetinde uzaya bakıp irtibat kurup iletişim işbirliği ve iştirak aşamalarında soyut ve somut hayatı çözmeye çalışıyorsun

Tek tek düşünüyorsun ikisi bir arada üçü bir arada dördünü bir arada düşünüyorsun

Mantık muhakeme sürecinden geçirip kainattaki ilmi keşfetmeye çalışıyorsun

Hikmet ve irfan aşamalarına ulaşıp insani Kamil olarak insanın en hayırlısı insanlara faydalı olanıdır anlayışıyla sonsuz bir dünyaya göçerken geride unutulmaz eserler bırakıyorsun.

Yaradan aşkıyla ideolojik prangalardan sıyrılıp Türkiye Yüzyılı idealiyle sevgi, barış ve adaletin hayat yolculuğunda aynaya, göle, dağa ve uzaya bakıp irtibat, iletişim, işbirliği ve iştirak sürecinde yeni bir Dünyanın inşa ve ihyasını amaçlayan sağlık, mutluluk ve huzur dolu nice ömürler dilerim.

medeniyet seviyesinin üstüne" çıkma hedefini destekleyen hem evrensel sanata uygun hem de millî karaktere sahip bir sanat dili yaratmıştır.

Sonuç olarak; Türk sanatında millîlik kavramı, yalnızca yerel konuları ele almakla sınırlı kalmamış, mitolojik ve destansı unsurların yeniden yorumlanmasıyla toplumsal belleği koruyan, millî kimliği güçlendiren ve nesiller arası kültürel aktarımı sağlayan dinamik bir sürece dönüştürmüştür. Türk mitolojisi, sanatçılar için geçmişin diri ve canlı olaylarını geleceğe taşıyan, kültürel sürekliliği tükenmeyen bir kaynak olmayı daima sürdürmektedir.

EXTENDED ABSTRACT

This study critically analyzes the representation of the family institution in state and media discourses following Turkey's declaration of 2025 as the "Year of the Family." The research begins by examining the historical and social transformation of the family institution, investigating how macro-level dynamics such as industrialization, urbanization, and modernization have influenced the transition from traditional extended family structures to nuclear families.

The study's primary focus is Turkey's contemporary demographic reality. Using data from the United Nations and the Turkish Statistical Institute (TÜİK), it reveals that Turkey's population is rapidly aging, fertility rates are declining, and this situation could lead to serious socio-economic challenges in the future. In this context, the declaration of the "2025 Year of the Family" is presented as a high-level policy initiative by the state to address this demographic threat.

A central finding of the research concerns how these multifaceted policies are handled by the media. Analyses of news content related to the Year of the Family indicate that the media largely operates according to a logic of "announcement journalism." News items predominantly convey statements from official institutions, primarily the Ministry of Family and Social Services, with limited critical engagement regarding the policies' background, implementation mechanisms, potential effects, or evaluation. For instance, even content-rich materials such as the Ministry's "Digital

Neşet Günal, Orta Anadolu köylüsünü merkeze alan toplumsal gerçekçi yaklaşımıyla aile temasının dönüşümünde belirleyici bir rol oynamaktadır. Sanatçı, kütlesel figür anlayışı, toprak tonlarına dayalı renk düzeni ve yalın kompozisyon diliyle aileyi kültürel kimlik, toplumsal dayanışma ve ekonomik mücadelenin somutlaştığı bir odak olarak sunmuştur. Günal'ın eserleri, köylü yaşamının sosyo-kültürel dokusunu görünür kılarken aileyi direncin ve sürekliliğin sembolü hâline getirmektedir.

Sonuç olarak aile teması, Türk resim sanatında hem bireysel hem de toplumsal boyutlarıyla kalıcı bir ifade alanı olarak varlığını sürdürmüştür. Neşet Günal'ın sanatında ise toplumsal gerçekçi bir perspektifle yeniden tanımlanarak Orta Anadolu'nun kültürel belleğine dair güçlü bir görsel kayıt niteliği kazanmıştır.

Appendix: Survey Instrument

This questionnaire investigates how different search interfaces influence product selection experiences. All items were measured on a five-point Likert scale (1 = Strongly Disagree, 5 = Strongly Agree) unless otherwise indicated.

Part 1 – Demographic Information

1. **Age**: ___ (years)
2. **Gender**

o ☐ Male

o ☐ Female

o ☐ Prefer not to say

o ☐ Other (please specify): _____

Part 2 – Experimental Conditions ***(recorded by the researcher)***

· Interface type: ☐ Voice ☐ Text

· Task complexity: ☐ Low ☐ High

Part 3 – Personal Innovativeness (Agarwal & Prasad, 1998)

1. I enjoy experimenting with new information technologies.

2. If I heard about a new information technology, I would look for ways to experiment with it.

3. Among my peers, I am usually the first to try out new information technologies.

4. I like to experiment with new information technologies.

Part 4 – Perceived Choice Simplicity (Huffman & Kahn, 1998)

1. I found the product selection process simple and manageable.

2. It was easy for me to understand my choices.
3. The selection task required little mental effort.
4. Overall, selecting a product felt straightforward.

Part 5 – Behavioral Intention (Venkatesh et al., 2003)

1. I would consider purchasing the product I selected.
2. I am likely to choose this product in the future.
3. I would recommend this product selection method to others.

Manipulation Checks

· "I used a voice-based interface during this task."

· "The decision task was complex and required significant effort."

$$= C'' \parallel b \parallel^{m}_{\mathrm{Lip}_{\beta}} \parallel f \parallel_{L^{p(\cdot)}},$$

elde edilir, burada $C'' = CC' \parallel \Omega \parallel_{L^{\infty}_{x} L^{s}_{S^{n-1}}}$ dir. Bu da tam olarak istenen eşitsizliktir.

3 Sonuç ve Değerlendirme

Elde edilen sonuçlar, değişken çekirdeklerin, kesirli yapının ve standart olmayan büyüme koşullarının birlikte ele alındığı daha genel bir çerçevede komütatörlerin davranışını açıklamaktadır. Bu yaklaşım, hem teorik harmonik analizde hem de doğrusal olmayan problemlerin analizinde kullanılabilecek yeni genellemelere kapı aralamaktadır.

Çalışmanın ilerleyen araştırmalarda, ağırlıklı değişken üslü uzaylar veya daha genel integral operatörleri için benzer sonuçlara genişletilmesi mümkündür.
